DPD-8692-59

21 December 1959

MEMORANDUM TO: Chief, Operations Branch, DPD

SUBJECT : Status of [redacted] ELINT Capability 25X1

Due to inability of [redacted] electrical system to maintain 400 cycles 25X1
required for System III and System VI we do not presently have a [redacted] 25X1
ELINT capability.

On 4 and 6 November 1959, Commo submitted requests to Material for the necessary transformers to rectify the above situation.

On 18 December 1959, the Depot was contacted and it was revealed that sufficient number of transformers had been received to provide for [redacted] ELINT capability. The transformers were scheduled for re- 25X1
shipment to the Detachments on the same day.

In view of this relatively fast fix, it can be estimated that our [redacted] 25X1
ELINT system should be ready to go by early January. The field 25X1
has been requested to furnish the ELINT [redacted]

25X1

/s [redacted]
